

Ace Herlen

Nope Lu (& Scott & Jack?)

Predicts 3-way/2 again X70 59, S47, X&K 53, LCP 70
 LCP 35
 LCP 34
 30

26 using .5k diode to enable SVT. Gives less noise than .25k.

0001 Called 25 to verify that they have CAS25.sem loaded & TLC enabled ⇒ yes

0003 Called 26 to verify above ⇒ firm on both.

0007 AH autos at all.

0015 Rec start

0024 Asked 25 for weather update sky clear, wind 8mph

0037 Ace (Dave Doody) wondering if we are recording on all channels & bands ⇒ yes.

003841 S-band @ 14 003841

0046 Station 25 1/L #Swan

0046 Station 14 1/L 1-way X & S

004730 Station 26 1/L on Ka-band

⇒ forgo monopulse & stay on Blind pointing.

Ka-band signal

010500 Stations 25 & 26 enable monopulse. last few secs of exp just to check pointing

~ 1 dB increase in SNR @ 26. No increase @ 25.
